

Use of School Emergency Salbutamol Inhaler Template Letter

Name _____

Class _____

Date _____

Dear Parent/Carer,

This is to inform you that _____ needed to use the school emergency salbutamol inhaler /spacer whilst at school today because.

His/her salbutamol inhaler was empty/did not work

He/she did not have their own salbutamol inhaler in school.

He/she did not have a spacer in school

Please ensure that a new salbutamol (blue) inhaler is sent into school as soon as possible.

The spacer will now be kept for your child to use at school. As this was the school's emergency spacer, please can you make arrangements to replace this, as agreed, as soon as possible. (Your GP can prescribe this)

Yours _____
