

Dr Karena Fraser

I am a General Paediatrician with a Respiratory Interest at Addenbrooke's Hospital, Cambridge.

I completed my medical degree in New Zealand and have trained in New Zealand and in the UK – in London and the East of England.

I am the Clinical Lead for Children and Young People's Asthma for Cambridgeshire and Peterborough, have an interest in medical education (Postgraduate Certificate in Medical Education, Advanced Paediatric Life Support Instructor, Educational and Clinical Supervisor), and participating in clinical research.

Outside of work, I enjoy spending time with my family and friends, cycling, and kayaking on the beautiful rivers near where I live.

I am so pleased to be part of the national drive to improve outcomes for children and young people with asthma, and value the opportunity to work alongside committed colleagues locally, regionally and nationally, to achieve this.
