

Dr Zainab Awan

I am a General Paediatrician with an interest in Asthma at Imperial College Healthcare NHS Trust in London.

I went to university in Manchester and completed my Paediatric training in London.

I am the Asthma Lead for secondary level care at Imperial, a co-developer of the national capabilities framework for professionals who care for children and young people with asthma, I am the Clinical Lead for the Willesden Community Diagnostic Centre, and I am the Asthma Lead for North-West London.

Outside of work I enjoy spending time with family and friends, travelling and attending the theatre.

I am excited to be a part of this wonderful team, who are all passionate about improving the care and quality of life of children with asthma, whilst supporting our colleagues across the country.
